NOTICE OF ALLOWANCE

Allowable Subject Matter

1. Claims 8-19 are allowed.
2. The following is an examiner's statement of reasons for allowance: The present invention relates to a fixed abrasive polishing pad which incorporates at least one oxidant selected from the group consisting of organic nitro compounds, copper oxides and copper salts. As the applicant points out in his arguments on page 4, oxidants are used in CMP polishing; however, these oxidants are introduced via an aqueous solution or slurry to compliment the abrading with the polishing pad. Therefore, it is the examiner's opinion that the art of record considered as a whole, alone or in combination, neither anticipates nor renders obvious incorporating at least one oxidant selected from the group consisting of organic nitro compounds, copper oxides and copper salts into the construction of the abrasive polishing pad, together in combination with the rest of the limitations in the independent claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
